DATA SHARING CONSENT

Redirection to known channel

Addressed:

- What information needs to be presented
- How to group the information
- The order of information

Not addressed:

- Joint authorisation

KEY CONSIDERATION WITH THIS MODEL

1 Minimise navigational switching

Ideally, keep the DR UI and the Landing page UI within the same APP or TAB

App options:
- In app browser

Web options:
- Redirection within the tab

2 Repetitious

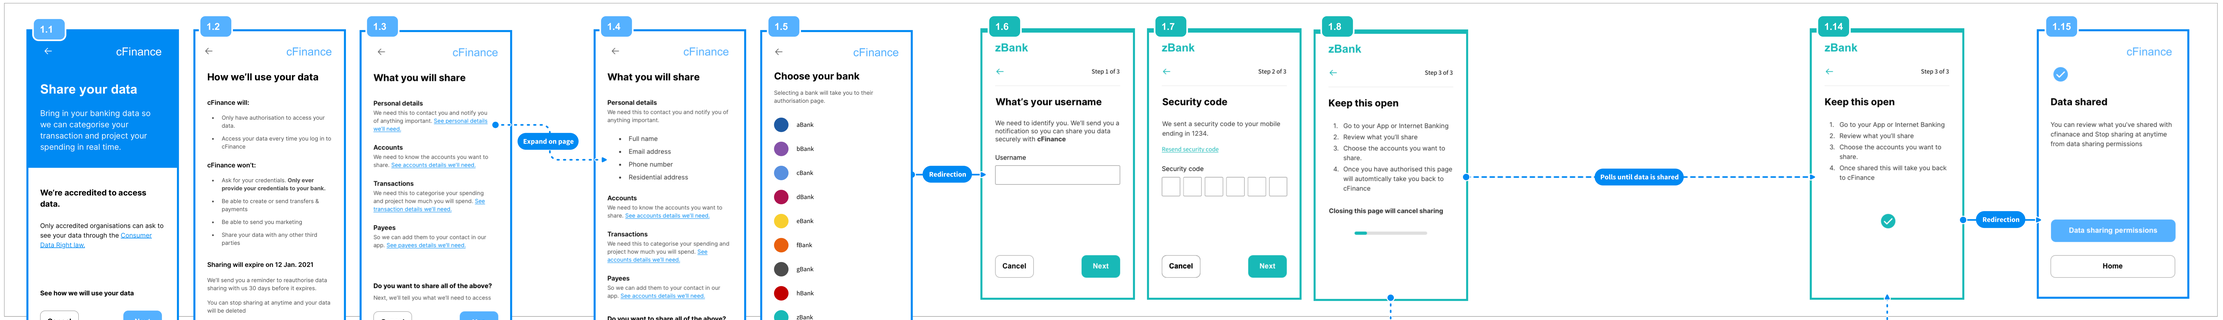
Entering in credentials (User ID) twice is not understood clearly, it's seen as a repetitive action.

3 Security

- Authenticated access to landing page
- Extensibility for MFA
- Controls around capturing originating device information

Data Recipient

DH - webpage



Why

Concerns to address

Value/benefit/purpose of sharing

CDR and accreditation

How

Concerns to address

- communcate that user has control
- Credentials kept by DH, not used by DR
- Security of process
- What can't be done
  - Payments
  - moving money
- Is it shared with 3rd parties?
- What happens when sharing stops:
  - deletion
  - de-identification
  - kept

What is shared

Concerns to address

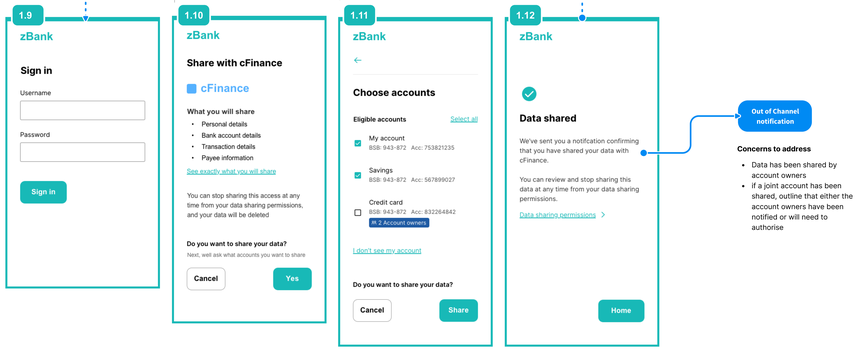
- Clear presentation of data being requested
- 1 sentence to describe why.
- Keep minimal, expand on page.
- links to see detail on page are better for screenreaders.
- There's no need to hide the information again, accordions are a poor pattern

Who do you bank with

Concerns to address

- Clear presentation of data being requested
- 1 sentence to describe why.
- possibly investigate risks of sharing this cluster and present back to user.

DH - Known channel



Playback

Concerns to address

- Who (DR) I am sharing with,
- Reminder of data clusters, to avoid repetition but still have them accessible.
- Revoke at anytime and where.
- If no accounts are being shared, skip to 1.13

Accounts to share

Concerns to address

- Why can't I see certain accounts

Alternate scenarios

- Large number of accounts - filtering?
- Joint account flows

Out of Channel notification

Concerns to address

- Data has been shared by account owners
- If a joint account has been shared, outline that either the account owners have been notified or will need to authorise
